- 2 hours
- 1 hour
- Drop-off zone
- 30 Minute Vendor Unloading Zone
- Government
- ADA priority
- Residential permit
- Unrestricted

Notes

1. The various types of proposed loading spaces are coded ('L1' etc.) for ease of reference on map. The codes have no other significance.
2. 'Loading by permit' refers to spaces designated for loading of non-commercial vehicles with downtown loading permits. Other loading spaces will be open to all vehicles and will not need a permit.
3. The recommended designations for the Core Zone and part of Market Street are based on a field survey undertaken by staff. The recommended designations outside this area are based on general policy as described in the text, and may change in detail if required.
